- Multi-step paint process
 - Over 250 colours
 - Aesthetic finishes to complement architectural materials
- Features**
- Hydraulic operation
 - High speed activation
 - Aesthetic design

**SECURITY
K12
RATED**

The Arrestor is a unique design with a comparatively shallow installation requirement. Tested in the United States to the US Department of State K12 rating (6800kg at 80km/h), it is ideal for anti-terrorist applications. The unit is quiet, can operate in busy areas and has the option of using biodegradable oil in its hydraulic system. Contact Leda-Vannaclip's product specialist for further information and/or site appraisal.

Product Range

Code	Description	Clear Opening ¹ m	Blocker Height mm
RBARSTR10	Arrestor Model Road Blocker	4.0	1082
